

## **OCCI (Oracle C++ Call Interface) 11.2.0.4.0 libraries for Microsoft Visual Studio 2010, Microsoft Windows 32bit**

This archive contains:

- 1) oraocci11.lib                837,934 bytes
- 2) oraocci11.dll              512,000 bytes
- 3) oraocci11d.lib            839,712 bytes
- 4) oraocci11d.dll            623,104 bytes
- 5) oraocci11.sym            558,259 bytes
- 6) oraocci11d.sym          769,043 bytes
- 7) occivc10\_11204\_win32\_readme.pdf (this file)

These updated libraries are required to build OCCI applications using Microsoft Visual C++ 10 compiler (Visual Studio 2010). These libraries are for the Oracle 11.2.0.4.0 release on Microsoft Windows 32-bit platforms.

oraocci11d.lib and oraocci11d.dll should be used if the application is to be linked with the debug version of Microsoft CRT.

### Installation Instructions

- 1) Create a new folder "vc10" under %ORACLE\_HOME%\oci\lib\msvc
- 2) Copy the .lib and .dll files from this archive to %ORACLE\_HOME%\oci\lib\msvc\vc10
- 3) Include %ORACLE\_HOME%\oci\lib\msvc\vc10 folder in the list of library folders when linking the application. Include oraocci11.lib or oraocci11d.lib as appropriate in the application link command.
- 4) Ensure that %ORACLE\_HOME%\oci\lib\msvc\vc10 is first in the PATH when running the application.
